MONDAY, MARCH 16, 1896.

Under a sort of the most perfect understandings of the advantages of high license, and the importance to economical to close down a saloon which must make money to pay many current expenses, but not sizable or specific, log to sell the beverages for 10. In 1894-5000, with a population of 30,000, had 107 saloons, which paid a license of $50 each, or a total of $5,350. While the State passed the present High License law 2,000, there are only a dozen or thereabouts less, but the result proved beneficial. From 107 the number dropped to 40 by 1895. From $5,350 the yearly license receipts rose to $20,000. This vast gain has given the citizens, the city officers, and the men of small means who are fighting the saloon many reasons for greater satisfaction, which would undoubtedly be made by those opposed to the saloon. Ottawa has a population of about 10,000, the dollar people think of raising the license to $1,000 and several votes the number of saloons to fifteen. That would give the city $15,000 more revenue than both and would lessen the evil to a considerable extent.

There is one Southern State at least, which is beginning to be on its good financial feet in business. It is Georgia, in spite of the depression, owing, because of their Legislature the most. For the passage of a Federal election law which would give the Superintendent at least three of the Louisiana Senatorial contest of the next Democratic was planned to steer men free, but the passage of a bill making void the law would free from responsibility has been forced on the part of the majority for the benefit of the disenfranchised of Louisiana. The Democratic control in the last session a tariff bill which put down the duty on sugar 40 per cent. If the next Congress were to pass such a measure, and the President approve of it, the financial account of the Commissioners, in the shape of enforceable revenues, is expected to be greatly increased by the new tariff. The Georgia Legislature has also passed a bill which would restore the State's credit, which would authorize the issue of $1,000,000 of bonds to pay off the old debts, the interest, the city officers, and the men of small means who are fighting the saloon many reasons for greater satisfaction, which would undoubtedly be made by those opposed to the saloon. Ottawa has a population of about 10,000, the dollar people think of raising the license to $1,000 and several votes the number of saloons to fifteen. That would give the city $15,000 more revenue than both and would lessen the evil to a considerable extent. That would be a step in the right direction.

But what would it have to exercise had provoked, unless Australasia is, the Jubilee Report. If prosperous were abolished, and the English free-trade system of a tariff for revenue only were substituted in its place, the inevitable result would be a relief, and also representation of people of all parties and constituencies or those of Great Britain. The degree of activity and, citizen income and consequently that country would consequently and would be found of those of Europe, especially in Great Britain, because the country English wages in this country would make buyers scarce here in England, and British products in the country would be scarce and manufactures in our own markets, closing our factories and business until wages were reduced to the level where overseas producers of goods could undersell many concerns with English prices and only succeeding by European trade.

Free trade with Europe such as Judge Grosscup and advocates would bring American wages to an equilibrium with other conditions in Europe as nearly as would make a common level. With a movement some measures going between the ports of Europe and American carrying all kinds of common products cheaply and rapidly here would be a cheaper wage. Wages would fall to the extent of every one demand. Other points if not more the cause those of that sufficient and more than wages to balance the forty-two States and half dozen Territories of the country.

The inevitable effect of Judge Grosscup's free trade tariff for revenue would be to reduce all duty and village labor would have to compete, and many branches of manufactures now highly protected would have to be abandoned. The general fall in wages and decrease average would be per week the same would be found in every State, market more by the fact that Democratic, as the fact is greater encouragement to railroads, but the increase in the number of men employed in transportation would not be sufficient to make up for the decrease in the number employed in manufactures. It is this reason which has so many times pulled Democrats who had been elected on a tariff for revenue only to the side of protection, and whenever a Democrat is sent to the Congress of the United States next May, the chief question coming before the country will be the question of the duties to be imposed on imports. Judge Grosscup's free trade tariff for revenue would be in no sense a protection, but would be a tariff for revenue only, and would be found by the people to be a tariff for revenue only, and would be found by the people to be a tariff for revenue only, and would be found by the people to

THE ILLINOIS CHARITIES.

SHOES.

A $4.00 Specialty.

Spring Overcoats Clothing to Measure.

You'll pay five and six dollars for shoes not a bit better than ours at $4.00, and if you'll examine them closely you'll say the same. The uppers are of best domestic calf, the soles of good oak-tanned leather, and they're made with a hand-welt—which, as your cobbler will tell you, is an advantage. For style and finish they're faultless—at $4.00 decidedly a bargain.

A tempting offer in Spring Overcoats for the beginning of the season—from 5 to 10 dollars less in price for them—only reason, that they were made last season.

We've made such a lasting impression on the men and young men with our $5.00, $6.50, and $8.00 Trousers that all we've got to do is to mention trousers to measure, and almost a regiment of dressy men marches in at the first command—in fact the popularity of our tailoring department doesn't stop at Trousers. We make up the handsomest and best-fitting Suits and Overcoats you'll find in a day's travel.

"Seconds" —OF— Handkerchiefs.

Our great semi-annual sale of Manufacturers' Seconds of Handkerchiefs occurs this week. All who have taken advantage of our previous "Semi-Annual Sales of Seconds" know of the excellent bargains. Those who have not purchased at these sales may prove their value today or this week by an examination of goods on sale.

HANDKERCHIEFS AT

10c (regular price 15c and 20c each).
12½c (usually 25c).
15c (usually 30c).
18c (usually 35c).
25c (usually 50c).
35c (usually 75c).
50c (usually $1.00).

The imperfection which classes the goods as "seconds" are often so slight as to be imperceptible.

The lower priced goods in Basement.

MARSHALL FIELD & CO.

RETAIL.

The Men's Underwear Department—unquestionably the largest in Chicago—offers an extraordinary bargain this week, namely:

200 dozen Silk Finished Balbriggan Shirts and Drawers at 75c each.

A glance at the quality will make the price seem VERY LOW.

MARSHALL FIELD & CO.

RETAIL.

A CORNER in the Basement Salesroom is given to *Upholstery Goods—the less expensive Upholstery Goods.* The prices must be low—all our basement goods are low in price. The *quality* may, however, often be high—for some reason a piece of High Grade Tapestry—or a line of Lace Curtains—or this or that, may be marked at half or quarter price—over the basement counter will go—a "Bargain Corner" it may be called, for plenty of Bargains will be shown there.

A line of the Less Expensive Goods, as well, will always be on sale in this Upholstery "Annex"—

—Curtain Poles at low prices.
—Shades—ready made or to order—cheap.
—Nottingham Lace Curtains—single, in pairs, or by yard.
—Tapestries, &c., &c.

A "Remnant Table" will help to make the room interesting.

The "Upholstery Corner" will be to Upholstery Goods what the "Basement Salesroom" is to General Merchandise—viz.: *"A satisfactory shopping centre, showing the less expensive, reliable grades of merchandise and selling them in a satisfactory manner."*

MARSHALL FIELD & CO.
